

Datasheet

Minor Chart

The chart table version makes lighting more flexible - not only for chart reading, but also as normal reading light. The bell orients in all directions to give light exactly where it is needed. The lights are used with low consumption 12V or 24V G4 halogen bulbs.

Model	Material	Finish	Bulb	Part. No.
Minor Chart	Brass	Lacquer	G4 10W F	930WH
Minor chart	Stainless steel	Highly finished	G4 10W F	931WH

Dimensions mm in
