

Attention:
 Toe rail to be continuous. Any gaps for cleats, etc. not to be wider than 100mm measured from end of toe rail to cleat, etc.
 Deck hatches are to be fitted with anti-slip patches. This can be a longitudinal strip of 50mm width.
 The distribution of the anti-slip surfaces shall be arranged with respect to the certifying body's requirements.

Attention:
 Foundations for all deckfittings to be inserted in deckmould
 All positions of deckfittings and function of line systems are to be checked on board by mock-up
 All angles of foundations to be taken on board
 Sheet angels for winches according to manufacturers requirements
 All winches optional electric driven
 Dimensions of fittings to be taken from manufacturers specification - NOT from this drawing
 Cup holders and fixing points for life lines to be provided. Exact dimensions and positions to be given from Yachtzentrum

Preliminary - Drawing in progress!
